# Fundamentals For Younger Hornists 

Dr. Matthew Haislip
Assistant Professor of Horn Mississippi State University

Long Tones
Begin the first note of each set only with air, then articulate the other notes.

18

## Chromatics

Match the sound from note to note with a smooth slur Continue higher or lower if desired

7

10

13

## Air Speed Slurs

Keep the sound beautiful and smooth throughout the slur
Remember: higher notes $=$ faster air - lower notes $=$ slower air
d=64 A
Fingerings: 0

$1 \& 3$

D

T2\&3

Scales
First: slur through the line with a smooth and full sound Then: repeat the line, tonguing each note with a clear front and a full sound

## Growth Exercises

Tonguing and Range Building Exercises

Keep the sound full and resonant as you speed up the air to go higher Only go as high as you can go easily with a good sound - Don't force it
